To Our Visitors,

The Macungie Police Department Crime Watch Program is committed to providing the most accurate crime prevention material available. The document you were trying to view is not available from the website because of explicit language and sexual references, which may offend those who read it.

The purpose of the document was not to offend people but to educate parents about the reality associated with online chat rooms. This material gives two different examples of why it is important to be vigilant when your children are using chat rooms.

If you wish to read the material, please send your request to [crimewatch@macungiepd.org](mailto:crimewatch@macungiepd.org) and a copy will be emailed to you.

Thank you for visiting our website.
